THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. An order has been announced by Karl Maron, chief of the Hauptverwaltung der Deutschen Volkspolizei (HVDVP), whereby all members of the Volkspolizei subordinate to the HVDVP but not including the KVP, VPS or VPL, are to turn in to their headquarters their Deutscher Personalausweis (DPA) (Identity card). The DPA would be retained by police headquarters during the term of service of the police member. Members of the Volkspolizei affected would thus have in their possession only their service pass (Dienstausweis). To date, this order has not gone into effect for members of the East Berlin police.
2. In the early part of November 1952, a one-week training course for selected police officers took place in Biesenthal near Bernau (N53/Z96). Approximately twelve members of Abteilung Schutzpolizei of the East Berlin police took part in this course. 1/ The purpose of the course was to train instructors for the basic military training (Grundausbildung) to be given the police militia. 2/ The participants in this course received a premium of 100 DM East each for the intensive training which continued uninterrupted each day from morning until evening. Future instructor candidates chosen from the East Berlin Polizeipräsidium and other police agencies in East Berlin will be trained in one-week courses which are to be given at the Volkspolizei School in Lühlheide (N53/Z94). The training includes the use of the carbine.
